

Janet Duffey  
Vice President, Supply Management  
Sikorsky Aircraft Corporation

Janet Duffey has been appointed Vice President, Supply Management. As enterprise leader of the supply management function, Janet will leverage scale and expand the deployment of the Supplier Gold program to achieve a competitive, streamlined material cost structure for product and non-product spend. She will optimize total supply chain performance for all Sikorsky programs and locations to ensure we consistently achieve industry-leading results. She will directly lead the Core Supply Management organization, including Development Programs, Material Logistics, Commodity Management, Global Transitions, and Program Operations.

Janet brings more than 27 years of commercial and military aerospace supply chain, programs and engineering experience. She joins Sikorsky from Raytheon Corporation, where she was Vice President, Supply Chain Management, managing \$2.3B in spend for the \$5.4B Space & Airborne Systems division. Prior to Raytheon, Janet was Director, Subcontracts Advance Programs at Northrop Grumman. Janet began her career at the Boeing Company in 1986, with roles of increasing responsibility in program management, engineering, and supply chain management, including IPT Leader for 717 Program Wing Components, Director of Materials Management for the Integrated Defense Systems site in Long Beach, and Director, C-17 On-Board Inert Gas Generating Systems Programs.

Janet holds a Bachelor of Science in Mechanical Engineering from University of California Los Angeles (UCLA) and an MBA from the University of Southern California.
